

QSIT LECTURE

Quantum Science and Technology
National Centre of Competence in Research

Special lecture for Physics students (BSc, MSc and PhD students)
Wednesday November 6, 2013, 14.45 h – 15.30 h, HPV G4

Serge Haroche

Ecole Normale Supérieure and Collège de France, Paris
Nobel Prize in Physics 2012

Serge Haroche will give an introductory level lecture on his Nobel prize winning research investigating the interaction of individual atoms and photons. The lecture is aimed at bachelor and master level physics students.

Host: Andreas Wallraff
