**Workshop in Honor of Prof. Peter F. Meier at
the occasion of his retirement, May 12, 2005**

This spring our colleague *Peter F. Meier* retired from the Physics Institute at the University of Zurich Irchel after a very successful and prominent scientific career. Peters pioneering contributions to the understanding of various aspects of condensed matter physics have been numerous and highly recognized by the international community. In his honor we organize in the early evening of **Thursday, May 12, 2005**, a scientific workshop at the **Physics Institute at the University of Zurich Irchel, auditorium Y16G15** which will be followed by an apéritif.

Program:

- 16:30 Opening
Prof. Hugo Keller, Director of the Physics Institute
- 16:35 “Fluktuationen in Hochtemperatursupraleitern”
Prof. Hans Beck, University of Neuchâtel
- 17:05 “EEG-Analyse in der Epileptologie”
Prof. Dr. med. Heinz-Gregor Wieser, University of Zurich
- 17:35 “From East Switzerland to West Texas”
Prof. Stefan K. Estreicher, Texas Tech University, Lubbock, USA
- 18:05 Concluding Remarks
Prof. Hugo Keller
- 18:15 Aperitif

Remark:

One day before, May 11, 17:15 Prof. P.F. Meier will give his Farewell Talk “Computer Simulations in Science” within the scope of the Physics Colloquium in the auditorium Y16G05 at the University Zurich Irchel. Afterwards an apéritif will be served.

Zurich, April 28, 2005
